

David Skaurud

Minneapolis College of the Arts

Furniture

With the Fellowship I will attend workshops, acquire essential studio equipment, and travel to furniture shows. The workshops will include a titanium frame building class at UBI, and bladesmith and metalsmith classes. I will be able to purchase a TIG welding machine, an anvil and leather rated sewing machine not possible for me without the Fellowship. I plan to travel to ICFF New York, and Milan, Italy furniture design fairs to experience a wide breadth of work created by the best in design.
