Glass

With the Fellowship I will travel to Ebeltoft, Denmark to work for two months as an intern for glass artist Tobias M^hl at M^hl & Drivsholm Glas to study his blend of Scandinavian design with traditional Venetian glassblowing techniques. Following the residency I will briefly visit five other European countries with rich glass traditions, including Hauges Hantverksglas in Kultorp, Sweden and Tzompanakis Blown Glass in Kokkino Chorio, Crete recognized for their sustainable studio practices.
